

Get the best out of your run: With Sports Massages from professional physiotherapists!

Your stressed muscles and aching legs will be treated perfectly from us between the stages. Like this the regeneration time will be accelerated through faster transportation of metabolic waste products and activation of your circulatory system. Sore muscles and other fatigue don't have a chance like this and you will start your run optimal the next day.

On top physiotherapeutic treatment is good for your mental and physical well-being and we can individually tape you and look after any upcoming complaints.

You will get all this from us right out there at the run.

OFFERS

Salomon 4 Trails

Regeneration – and Relax Massage after the finishing line (20 Min) 15 €
